Job offer: Engineer for Microcontroller Applications

We are **ITSELECTA**, a recruiting agency based in Krakow, Poland. Our mission is to find the right people for our customer and the perfect job for our candidates. We are focused on recruiting for customers in Poland and Czech Republic.

Our customer is a well-known international company in the electronic field and we are selecting candidates to join their team in the Prague office. It is a great chance to join a great company if you have the right skills and motivation to move in the beautiful city of Prague.

Responsibilities:

- Technical support and technical training to customers at HW & SW design
- Applicative and product related support to marketing and sales engineers
- Development of reference applications to facilitate Design-In of products
- Development of SW for 32bit Automotive microcontrollers
- Analysis of customer applications and elaboration of future advanced system solutions

Requirements:

- Degree in Electrical Engineering or Computer Sciences or comparable qualification
- Familiar with programming languages - Assembler, C
- Automotive network knowledge (CAN, LIN...) optional
- Good communication skills in English language (writing and verbal)
- Flexibility (traveling in Europe) and sense of responsibility

The company offer:

- Very interesting field of activities (car breaking, power steering, HVEC, transmission systems ...).
- Good team spirit
- Great possibility to learn new skills
- Possibility to travel abroad
